FRESH TALENT TOP EMPLOYERS

+ WHY WE STARTED

Staff4U Inc. began some years ago with the idea of helping people find employment where they can flourish. We understand what it's like to be at a place of employment where you are not valued. We understand that a single parent is the only source of income for the family and needs a company willing to provide that work life balance. We understand how our veterans or military friends are retiring or separating from the military and find it difficult to transition to an equivalent position as a civilian. We understand.

While on the other hand, we understand as business owners the importance of having a cohesive environment that can lend itself to a more efficient and effective workforce resulting in increased productivity and profitability. We understand.

We spend so much of our time at our place of employment as such *Staff4U Inc.* believes in a holistic approach to organizational challenges. We provide administrative and general consulting, placement and staffing, as well as, professional training.

Here at *Staff4U Inc.* we are Passionate about Placing People in Position to realize their Potential so that they may live in Prosperity.

Staff4U Inc. is where Potential and Prosperity meet.
